SUMMARY

I'm a second-year Computing Science student with a passion for programming and problem-solving. I'm eager to fuel that passion by gaining practical experience, taking on new challenges, and learning from real-world projects.

SKILLS

Python, Java, Django, Docker, Wagtail, Git, Bash, PHP, JavaScript, HTML, CSS

WORK EXPERIENCE

BlackRock – Spring Insight Week (Aladdin Engineering)

Spring 2026

Participant

Edinburgh

- Attended engineering spotlights across Aladdin's platform teams, gaining firsthand insight into how the platform is built and continuously evolved, including examples of how AI is leveraged to streamline team workflows.
- Acted as Database Administrator in a simulated server crash group challenge, devising strategies for incident prevention and presenting solutions to senior engineers.
- Participated in an API workshop, enhancing practical skills in API usage, design and development for large-scale financial systems.

Subcity Radio station

Oct 2025 – Present

Web Developer

Glasgow

- Maintained and developed features for a Django-based web application for Glasgow's largest student radio station.
- Extended Wagtail CMS to improve usability for admin users, making show-scheduling requirements clearer and more manageable.

PROJECTS

Quantium

Aug 2025 – Aug 2025

Software Engineering Job Simulation

- Developed an interactive Dash application that enabled the client to assess the impact of price changes on sales and profitability.
- Implemented a test suite to verify the Dash application is working and a bash script to automatically run the test suite.
